

TACV – Cabo Verde Airlines arrives at T.F. Green Airport in Providence

TACV – Cabo Verde Airlines (Praia, Cape Verde Islands) yesterday (June 3) began service to T.F. Green Airport (PVD) in Providence, Rhode Island. TACV is the official airline of Cabo Verde and offers twice weekly flights on Tuesdays and Thursday aboard 210-seat Boeing 757-200 aircraft to the city of Praia on the island of Santiago. Connecting service is also available to the Cape Verdean islands of Fogo, Sao Vincente, Sal and Boa Vista.

TACV – Cabo Verde Airlines had previously served the Cape Verdean community with flights

out of Boston Logan Airport. The Cape Verdean community has a strong presence throughout New England and in some areas communities are actually closer in proximity to Green Airport. The service has traditionally been geared towards linking family and friends; however, there is a new emphasis on growing it as a tourist destination by promoting the islands' beauty, climate, hiking, surfing and other water sports. In the coming months, the airline hopes to add to its frequency and service offerings.

Later this month, Green Airport also welcomes a second international carrier- Condor Airlines with seasonal service to and from Frankfurt, Germany and connecting European destinations.
